Volume 11, Numbers 1-6

Author Index

Adams, M.H., 310
Aragon, D., 191
Archer, C.L., 268

Becker, D., 268
Bliton, M.J., 211
Broom, C., 157
Brown, K.K., 268

Carroll, P., 114
Cassidy, L., 108
Chorba, M., 173
Colver, C., 340
Corley, M.C., 35

Deatrick, J.A., 318
Dever, R., 41, 141
Dimitrakopoulos, C., 335
Donner, T.A., 41, 104, 141
Dungan, J.M., 184

Fawcett, J., 268
Ferrara, A.M., 202
Fiebigler, C., 108
Ford, L.A., 340

Gann, S., 268
Gaw, B.L., 68
Gorny, D.A., 202
Gross, J.P., 326

Hadlich, E.N., 108
Harper, J., 130, 335
Heath, A.H., 57
Helm, A., 211
Hill, C.S., 6
Holaday, B., 211
Hotter, A.N., 35

Johannsen, J.M., 48
Johnson, S.H., 4, 239
Joseph, D.H., 145, 278

Kahn, E.C., 286
Klein, D.M., 75

Lammon, C.A., 310
Larrivee, C., 145, 278

Makielski, M., 157
Martin, M., 191
Mazur, D.J., 211
McCommon, T.L., 35

McCoy, A.K., 152
Morey, L.B., 184

Norris, M.K.G., 6, 295

Peebles, B., 334
Peterson, K., 28
Pinson, J.M., 242

Recker, D., 249
Resko, D., 173
Rishel, P.E.N., 298
Roberts, S.L., 13, 90
Rosenblum, R.K., 318
Ruffing, B., 108

Schaefer, K.M., 28, 65
Simmons, F.M., 164
Singleton, K.A., 41, 141
Stark, N., 334

Thomas, D., 334
Tracy, M.F., 108

White, B.S., 13, 90
Wickham, V.A., 340
Williams, M.L., 222
Witek-Janusek, L., 75
Wong, M.J., 268
Wurster, A.B., 268

Yocke, J.M., 104
Young, S.L., 202

Zander, K., 127

Subject Index

Algorithms

chest trauma, key steps in assessing the patient, 298
communication technique, intubated patients, 222
deciding on blood pressure measurement, 145

Blood pressure

decision-making algorithm for measurements, 145
teaching decision making, discrepancies in cuff vs. invasive, 278

Cardiac patients, females, 65

Case management

developing the trauma nurse case manager role, 164
focus on patient outcome, 127

- Catheter-related sepsis, research analysis, 249
- CAVH patient, preventing complications, 242
- Chest trauma algorithm, key steps in assessing the patient, 298
- Chylothorax, thoracic trauma or surgery complication, 184
- CNS role, product research and development, 202
- Collaboration, with physician, ethical dilemma, 211
- Competency performance, enhancing through a skills fair workshop, 340
- Complications
 - chylothorax, thoracic or surgical, 184
 - preventing them in the CAVH patient, 242
 - Conceptual model of nursing, selecting, focus on the individual patient, 268
- Congenital heart defects, the cocaine-exposed neonate, 6
- Coping strategies, among critical care nurses, 28
- DDD pacing, temporary, hemodynamic performance, 191
- Decision making
 - algorithm for blood pressure measurements, 145
 - teaching, discrepancies in cuff vs. invasive blood pressures, 278
- Discharge planning, self-care assessment, 48
- DNR orders, family needs based on presence or absence of, 286
- Edema
 - preventing complications, 90
 - pulmonary alveolar, 13
- Ethics
 - floating out of ICU, 104
 - pain medication for terminal patients, 157
 - patients with chronic problems, 35
 - physician collaboration dilemma, 211
 - role of the nurse in ethically ambiguous situations, 318
 - using surrogate decision makers, 334
- Family needs, based on the presence or absence of DNR orders, 286
- Floating, out of ICU - ethics, 104
- Games, to enhance learning, 173
- Guidelines, PTCA patients, 108
- Hemodynamics
 - performance, temporary DDD pacing, 191
 - third level, guiding clinical decisions, 130
- Imagery, to control pain and anxiety in ICU patients, 57
- Immunotherapy, for sepsis, 75
- Infants, Heart defects in the cocaine-exposed, 6
- Insuring competency of the nursing team: a professional responsibility, 295
- Intubated patients, choosing communication technique, 222
- Learning styles (viewpoints), 120
- Learning, enhancement through use of games, 173
- Legal, power of attorney, 41
- Medical Device Act, nursing implications, 141
- Model of nursing, conceptual, focus on the individual patient, 268
- Nursing Outcomes, 4
- Nurse role, in ethically ambiguous situations, 318
- Organophosphate overdose, nursing strategies, 310
- Pain medications, administration for terminal patients, 157
- Personality styles, for enhancing preceptor programs, 114
- Pharmacologic paralysis, recollections of children experiencing, 326
- Power of Attorney, 41
- Preceptor programs, enhancement through personality styles, 114
- Professional responsibility, insuring competency of the nursing team, 295
- PTCA
 - developing nursing guidelines, 108
 - life-style change, 68
- Publication Standards, developing new, 239
- Pulmonary alveolar edema
 - common nursing diagnoses, 13
 - preventing complications, 90
- Research and development, product, CNS role, 202
- Self-care assessment, 48
- Self-scheduling, in critical care, 152
- Sepsis
 - catheter-related, research analysis, 242
 - immunotherapy, 75
- Skills fair workshop, to enhance competency performance, 340
- STATPack
 - beyond $S_{p}O_2$: oxygen monitoring in patient care, 136
 - communicating with intubated patients: selecting a successful combination of techniques, 230
 - Reducing intravascular catheter-related sepsis, 263
 - Using an algorithm to assess the chest trauma patient, 306
- Surrogate decision makers, using, ethical dilemma, 334
- Terminal patients, administration of pain medication, 157
- Trauma nurse, case manager role, developing, 164
